ORGANIZATION LAUNCHES TO ADDRESS TIME TRAVEL HORRORS  
<http://noprop5.org/> is up and running to gather support for the anti-commercial time travel effort

LOS ANGELES, CALIF. – February 24, 2011

The emergence of commercial time travel has destabilized the social, political, and economic foundation of the world today. While it gives valid leeway to some good, most controversies that arise over commercial time travel have devastating potential to do great harm.

That is why the launch of the biggest anti-commercial time travel effort in the history of the world is a monumental event. This stepping-stone to potential anti-commercial time travel legislation and general societal change can be propagated through <http://noprop5.org/>. Come June, remember to vote no on Prop 5.

Join the coalition and visit the website. Past evidence demonstrates the capacity for greed and destruction due to commercial time travel. Author of ***Selected Shorts and Other Methods of Time Travel*** understands the moral and social implications of commercial time travel first hand. He comprehends that "for humanity, mother Earth, and the prosperity of all living things," it is essential to put strict legislation on the issue.

For more information on the coalition against Prop 5 and the efforts against commercial time travel, please visit <http://noprop5.org/> and <http://www.selectedshortsthebook.com/>. **Selected Shorts and Other Methods of Time Travel** is available through Ingram and can be purchased through Amazon and Blue World Publications at <http://www.blueworldpublications.com/>. E-books are available through Smashwords at <http://www.smashwords.com/books/view/35799>.
